

Bird Walk

Michael Stephen McNally

I am an international schoolteacher living abroad for 20 years. I have a Korean wife Chi Sook Lee and a 15-year-old named Emmitt McNally. I teach art and design and other classes in the International School circuit - mostly in China. I love simple, hand drawn artwork and use the computer and Adobe software as the color palette. The Cowboy Junkies from Toronto had a phrase used to define them in the 1990's. It was studied Amateurism. That is much like my art. It is hand drawn, folky and yet technically refined. Enjoy.
